Attempt : 1

Total Mark : 10

Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

In a user registration system, there is a requirement to implement a username validation module. Users attempting to register must adhere to specific criteria for their usernames to be considered valid.

Your task is to develop a program that takes user input for a desired username and validates it according to the following rules:

The username must not contain any spaces. The username must be at least 5 characters long.

Implement a custom exception, `InvalidUsernameException`, to handle cases where the entered username does not meet the specified criteria.

Input Format

The input consists of a string S, representing the desired username.

Output Format

If the username is valid, print "Username is valid: [S]".

If the username is invalid:

1. If the username is short, print "Invalid Username: Username must be at least 5 characters long"
2. If the username contains spaces, print "Invalid Username: Username cannot contain spaces"

Refer to the sample output for formatting specifications.

Sample Test Case

Input: John

Output: Invalid Username: Username must be at least 5 characters long

Answer

```
// You are using Java
import java.util.*;
```

```
class InvalidUsernameException extends Exception {
    InvalidUsernameException(String msg){ super(msg); }
}
```

```
public class Main {
    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);
        String s = sc.nextLine();
        try{
            validateUsername(s);
            System.out.println("Username is valid: " + s);
        }catch(InvalidUsernameException e){
            System.out.println(e.getMessage());
        }
    }
}
```

```
static void validateUsername(String s) throws InvalidUsernameException {
```

```
if(s.contains(" "))
    throw new InvalidUsernameException("Invalid Username: Username
cannot contain spaces");
if(s.length() < 5)
    throw new InvalidUsernameException("Invalid Username: Username must
be at least 5 characters long");
}
```

Status : Correct

Marks : 10/10
